

# Your mission is critical. Your cybersecurity should be too.

## CMMC Compliance Services

### Who We Are

#### Trusted IT Partner. Faithful Steward.

Renfrow Engineering is a North Carolina-based Information Technology firm rooted in Christian values and committed to securing the mission of others. We help small to midsize businesses and government contractors meet CMMC 2.0, NIST 800-171, and DFARS cybersecurity standards with confidence. **Renfrow Engineering is a mission-minded partner- not just a service vendor. Whether you're preparing for your first audit or need help maintaining secure systems year-round, we walk with you every step of the way- providing documentation, implementation, and 24/7 support with a heart to serve.**

### What We Provide

#### Comprehensive Compliance Services

#### CMMC Gap Assessments

Map your current status to CMMC controls and receive a clear remediation roadmap.

#### SSP & POA&M Development

Create professional, audit-ready documentation tailored to your environment.

#### Security Hardening

Configure firewalls, apply access controls, encrypt data, and secure endpoints.

#### Audit-Ready Documentation

Acceptable use, incident response, asset tracking, change logs and more.

#### Compliance as a Service

Patching, log review, documentation maintenance, and secure portal access.

#### Required Personnel Training Proctor

Proctored training sessions tailored to your organization's environment and responsibilities.

#### 24/7 Security and Compliance As a Service:

At Renfrow Engineering, we are mission-minded and care deeply about securing United States government contractors and want to make enterprise-grade cybersecurity and CMMC compliance accessible to all U.S. government contractors- with advanced system hardening, audit-ready documentation, real-time monitoring, and full-service remediation. Our help desk is open 24-7 and always happy to help.

### Who We Serve

#### Trusted IT Partner. Faithful Steward.

Renfrow Engineering proudly serves small to mid-sized businesses, prime and subcontractors, and technology providers working with the United States government. Whether you're handling Controlled Unclassified Information (CUI), pursuing CMMC certification, or simply seeking to secure your operations with integrity, we are honored to walk with you. Based in North Carolina and serving nationwide, we meet organizations where they are- with clarity, compassion, and a commitment to excellence.

**Start Your CMMC Journey Today:** We offer complimentary readiness calls and onboarding consultations. Let's work together to build something secure, compliant, and purpose-driven. Secure Client Portal Access Available.
